

Mental Health & Recovery Board
of Clark, Greene & Madison Counties

MHRB Initiatives

Prevention and Health Promotion

Over the past several years the Mental Health & Recovery Board has focused more intently on increasing our prevention and health promotion efforts. We now facilitate three active suicide prevention coalitions and a substance abuse coalition.

We actively participate in at least two other coalitions, as well as three Family and Children First councils, and have increased our public speaking and education efforts.

The **PAX Good Behavior Game** is growing and is now in all three of our counties.

We have a new website, actively use social media as an educational outlet, and publish a quarterly newsletter.

**Partners
in Recovery**

We have made significant progress expanding our vision and efforts to embrace a community based, prevention focused approach to improving the health of our citizens while simultaneously maintaining all of the work necessary to continue planning, funding and overseeing the services and programs necessary for individuals with serious and persistent mental illness to live successfully in our communities.

2013 promises to be busy and challenging but the MHRB also believes there will be opportunities to make a significant and positive contribution to the citizens of Clark, Greene, and Madison Counties.
