

Mental Health & Recovery Board
of Madison County

210 North Main Street
London, OH 43140

Real People...Real Results

Here are just a few Success Stories from the hundreds of Madison County residents who have benefited from mental health and recovery services:

“We struggled with my son’s angry outbursts, job losses and strange behavior for several years. When he was diagnosed with a mental illness I thought my world had ended. The kind and professional people at Mental Health Services and NAMI helped us understand my son’s problems, put him on the proper medicine, got him into safe housing, and watched over him until he was better. He has his job back and I have my son back.”

— Parent in Madison County

“My wife and I knew when we married that we wanted children. What we didn’t know was that we didn’t know how to be parents. By age three our oldest daughter had complete control of our lives. The Incredible Years program taught us about child development, how to set limits and give praise and effective ways to handle our daughter’s behavior. It has been a life-saver in our marriage!”
